Miscellaneous

Clinic Management conducted a data review with our Press Ganey Advisor to identify improvement opportunities for the Clinic Patient Satisfaction results. It was apparent the categories of “Access” and “Moving Through Your Visit” were the areas of most improvement across all service lines. The Clinic Managers have reviewed several documents to prioritize action items. We have specifically set this up to be led by Managers and distributed through Clinic Supervisors and ultimately the front-line staff.

The questions on the survey that fall under “Access” and “Moving Through Your Visit” include ease of getting the clinic on the phone, ease of scheduling appointments, courtesy of the registration staff, informed about delays and wait times. Press Ganey provides specific documents related to each of these questions to lead improvement.
