

IT'S SAFE TO GET CARE AT MASON HEALTH

Current COVID-19 & Vaccination Updates

Yvonne Smith, Kaizen Promotion Office Coordinator, and Carmen Ehevaria, Administrative Assistant, at the Mason County Transit Center assisting at the vaccine event held by Mason Health and the National Guard on May 28th.

Mason Health has administered more than 24,342 doses of COVID-19 vaccine to date! That's 50% of all eligible Mason County residents.

Effective May 12, all Washingtonians ages 12 and older are eligible for the COVID-19 vaccination, following announcements from the Department of Health and CDC. Mason Health is providing vaccinations through our vaccine clinic, as well as at community outreach events.

Please note – parental consent/permission is required prior to vaccination for patients under the age of 18. Completed consent forms are required for everyone prior to vaccination.

Schedule your **free** COVID-19 vaccination appointment online at the time that works for you! Visit our website at <https://calendly.com/masonhealth> and look for the link to schedule your vaccine. Don't forget to fill out and bring your consent form to the appointment.

For more COVID-19 vaccine information, visit www.masongeneral.com/about/covid-19.

News Briefs

Exciting Updates!

Mason Health has launched an upgrade to our electronic medical record (EMR) system as of Monday, June 28, 2021.

Please note, Mason Health's clinics and services will be operating, however, you may experience delays and longer wait times. You will be asked to provide information that has been collected in the past as we are converting to the new system. The provision of service may take a bit longer as we launch the system upgrade. Thank you in advance for your understanding and patience with our staff members during the transition period. We appreciate your support.

Mason Health's new **Cerner CommunityWorks** domain, **Domain Northwest**, is owned and governed by Mason Health, in collaboration with other health care organizations who will join the domain. It is the first of its kind for Cerner and represents a move to localize control of electronic medical records.
