Mason General Hospital Foundation was formed by a group of concerned and interested business and professional people who came together to help increase community support for maintaining quality health care for residents of Mason County.

Mason General Hospital Foundation opened Treasures Thrift Store in November of 1996. Proceeds from Treasures are used to purchase medical equipment to ensure quality health care at Mason General Hospital & Family of Clinics.

To date, the Foundation board, the Treasures Committee and dedicated volunteers are responsible for having raised over a million dollars for improved health programs and new state-of-the-art medical equipment for the hospital.

Community support has been invaluable to the success of these worthy endeavors. We invite you to share your talents and resources in the interest of continued quality health care in Mason County.
